

Findings Report

Inspector's Name: Larson Paul

Date Started: March 13, 2020

Date Completed: March 13, 2020

Project Name: Better Course Planner

Time Report:

Time spent on Familiarization with the Code: 15 mins

Time spent on Filling in Findings Report: 15 mins

Time spent on Actual Inspection: 30 mins

Findings:

#	Description	Line #	Class Name	Associated Checklist Item #
1	Input to query() is not checked for validity	7	CoursesQuery LoginQuery	3: Anomaly Management
2	query() code is largely similar between classes	7	CoursesQuery LoginQuery	8: Reusability
3	toString() method not implemented	-	Application WebController CoursesQuery LoginQuery	10: Instrumentation

Further Comments from the Inspection of this Class:

- There is no usage of PreparedStatements in query(), which is a useful way to cleanse string input for JDBC statements
- Comments throughout query() are descriptive and helpful
- toString() method requirement questionable for given classes
