Time Report:

Time spent on Familiarization with the Code: 12 minutes

Time spent on Filling in Findings Report: 5 minutes

Time spent on Actual Inspection: 17 minutes

Findings:

#	Description	Line #	Class Name	Associated Checklist Item #
1	"signBtn" rather than "signInBtn" like '>Sign In' and "signInModal"	11,15	signIn.html	2
2	A few comments, needs more and greater detail	All	signIn.html	7
3	"level" not necessarily fully descriptive like later "yearLv"	13,14	searchBar.html	2
4	No comments, requires documentation	All	searchBar.html	7
5	Still descriptive, but not as descriptive or consistent as page/button names : /course and /degree vs MyCourses or	13,14	navbar.html	2/11

	MyDegrees (referenced in their inspection)			
6	No comments, requires documentation	All	navbar.html	7
7	No comments, requires documentation	All	courseSideBar.html	7
8	Course information currently stand-in, not taken from JDBC database information as needed	22-32	courseSideBar.html	8

Further Comments from the Inspection of these files:

Besides commenting required in each, none are major issues except #8 which is a product of this evaluation being done on an alpha version of the product. Basic functionality hold up.

Findings:

#	Description	Line #	Class Name	Associated Checklist Item #
1	One comment, needs more and greater detail	All	catalogue.html	7
2	Name 'course.html' not super descriptive, could apply to courses sidebar or MyCourses page	Filename	course.html	2
3	No comments, requires documentation	All	course.html	7
4	Could be changed like #2 issue with course.html, more descriptive name specifically referring to page it builds as there will be other aspects to the projects dealing with degrees	filename	degree.html	2

5	No comments, requires documentation	All	degree.html	7
6	No comments, requires documentation	All	faq.html	7
7	No comments, requires documentation	All	home.html	7
8	No comments, requires documentation	All	schedule.html	7

Further Comments from the Inspection of this Class:

Faq.html only has Q and A stand-in format, no section allocated for user bug reports as specified in designs, but it is just the alpha starting point.
